Thermodynamics

$$\frac{\delta \mathcal{F}_\theta}{\delta \rho(\mathbf{r})} = \mu$$

Dynamics

$$\frac{\partial \rho}{\partial t} = \nabla \cdot \left[\mathbf{M}_\theta \nabla \left(\frac{\delta \mathcal{F}_\theta}{\delta \rho(\mathbf{r})} \right) \right] + \nabla \cdot \sqrt{2k_B T \mathbf{M}_\theta} \xi$$
